

Port Louis, 21 June 2021

Legis Consult Law Chambers and *5 Fifteen Barristers* have the pleasure to announce their merger effective on 1 July 2021, forming ***Orison Legal***.

The merger brings together the resources and competencies of two commercial sets of barristers and attorneys, extending their capacity to meet client requirements across the full spectrum of commercial and corporate law services.

Legis Consult Law Chambers is headed by Rajesh Bucktowonsing, Senior Attorney, who reckons 34 years of practice in commercial, corporate and insolvency disputes. The set also consists of seasoned litigator, Mannish Ajodah, 7 dedicated junior attorneys and a team of experienced clerks. For Rajesh Bucktowonsing, the merger is an opportunity to consolidate a team of next generation practitioners with whom he can impart his experience and work towards the continuity of his well-established practice.

5 Fifteen Barristers was founded in 2019. It consists of a team of rising lawyers with experience in complex commercial and corporate matters and the boldness to approach the market differently. Within 2 years, the set has successfully built a relationship of trust with its clients and network, based on its quality of work, modern service culture and active engagement with legal developments. The team consists of a good blend of dispute resolution lawyers (led by Bilshan Nursimulu) and transactional lawyers (Tania Li and Nicholas Ng).

The merger therefore brings together a veteran senior attorney and a new generation of lawyers committed to upholding excellence in the provision of legal services in Mauritius while adapting to the needs of a constantly shifting business environment. The new set is strongly focused on developing both entrepreneurship and the technical skills of its members.

The name “*Orison*” is an old English word for “prayer”, which is also the term used for remedies that a party seeks in court proceedings. It is a further reminder of the importance and urgency of client requests. The name also reflects the set’s value to remain respectful in its approach to clients, opponents and the courts.
